Task 3 Read the text about family and choose *a* or *b*.

Family plays a huge role in the world. These are the people who love and support us and are always ready to help. Today's family is

not as large as the one in the past. Many couples have 1-2 children now, whereas in the old days they had 6-10. Another thing that has changed over time is the fact that today both parents can have jobs. That's why they bring their small kids to grandparents or to kindergartens before going to work. Then, in the evening, they must have some family time together. In other words, spend some time with their children. That way they keep in close contact with each other. Although many other points have become different now, family is still important – we all want love and support in our lives. These are the things which our family members give us.

1 Family is ... to us.

a) *not important* b) *important*

2 Modern families are ... than the ones in the old days.

Shopping does not only mean buying things. It is also an activity that many people enjoy doing. The main reason is that many of us like to look and feel 'fresh' and not the same. Some often change their image and refresh their wardrobe, whereas others prefer getting new clothes and accessories when they need them.

Today there are malls – huge shopping centres where you can buy anything you want or need. Apart from food, clothes, books, items of technology and many other things, malls also offer entertainment. There can be cafes, a cinema, even a skating rink. That's why a mall is a great place not only for shopping, but also for having fun. In other words, you can mix your shopping with entertainment, which brings pleasure.

My younger brother and sister can be a real pain in the neck! Tommy always asks a lot of questions. He is the most curious person I know! Tommy is also very sociable – he can't stand being alone. He talked loudly in a Spanish lesson once, and Ms Smith, who is his firm teacher, punished him. (She gave Tom more homework.) However, my brother is very friendly and helpful. He likes cooking, and he always helps Mum make dinner.

Tina, my younger sister, is not crazy about cooking. She is not so chatty either. Tina loves drawing, and she is a pet student of her Art teacher. (That's so unfair!) My sister is not shy at all, and she often hangs out with her best friend, Ann. She is also too much into fashion. Tina has so many clothes, and she still wants more! I never go shopping with her because she spends 20-30 minutes in fitting rooms.
